- A. **NAME IN FULL**- All passengers, regardless of age, were listed. Immigrant surnames may not be identical to the one you know: language barriers and accents resulted in creative spellings and immigrants sometimes modified their names after settling into their new homeland.
- B. **CALLING OR OCCUPATION**- Check occupation against the occupation listed on census records to help determine if you've found the right person. Note, however, that occupation was often listed as "laborer" for steerage passengers, although a new job may have been found after arrival.
- C. **LAST PERMANENT RESIDENCE**- Information in this column may help you determine where to look for overseas records. Note that depending on the year, you may be looking at place of birth or last permanent residence.

**BROTHER ISTVAN OROSZ
MONAJ, ABANY-HUNGARIA**

- D. **NAME OF NEAREST RELATIVE IN HOME COUNTRY**- An entry on this line gives you a new relative to discover. Bonus if it's the parent of a married woman – you may have just discovered the woman's maiden name.

- E. **FINAL DESTINATION**- Not what you were expecting? Immigrants often had a destination associated with a friend, relative or job, but they may have moved shortly thereafter. City directories and census records may help you determine when.

**BR. I. L. : FERENZ LIPPAL
OROSZLAMOS. YG.-SL.**

- F. **CODES**- Don't know what something means? Look for clues on other lines. This notation of Br. I.L. seems to indicate brother-in-law.

STATES IMMIGRATION OFFICER AT PORT OF ARRIVAL

The entries on this sheet must be typewritten or printed.

States, or a part of another insular possession, in whatsoever class they travel, MUST be fully listed and the master or commanding officer of each vessel carrying such passengers must upon arrival deliver lists thereof to the immigration officer.

- G. WHETHER IN U.S. PREVIOUSLY-** Pay careful attention to a previous visit: it may lead you to an earlier passenger list containing additional information.
- H. HEALTH CONDITION-** Not all health problems were a quick ticket back home; note the handwritten comments regarding the person on line one.
- I. HEIGHT, EYE COLOR-** Passenger lists aren't the only place you may find a physical description of your ancestor. Look for similar information on draft cards and passport applications.
- J. PLACE OF BIRTH-** International records at Ancestry.com and experts on the [Hire an Expert](#) tab can help you discover more about your ancestor in his or her former homeland and place of birth.
- K. STEERAGE-** Look for details about the travel class at the top of passenger arrival lists - in this case it was "Steerage," a.k.a. third class. Not clearly marked? If most travelers on the page had little cash and were designated "laborers," you're likely in steerage.
- L. SHIP NAME-** Want to know what the ship looked like? Search [Passenger Ships and Images](#) at Ancestry.com.

M. HANDWRITTEN NOTES- Pay attention to handwriting - it may reveal information about your ancestor that wasn't required to pass inspection or that clarifies an answer given.

N. ABBREVIATIONS- To save time, inspectors often used terms like "above," "same," "ditto" or even an abbreviation of "do" to indicate a repeated entry.

- O. ARRIVAL DATE-** If your ancestor arrived in a census year, note the arrival date to determine if it was before or after the census was taken.

36 mottagningsanläggningar – Immigration Centers – i USA

Innan Castle Garden öppnades anlände immigranterna direkt in till Manhattans olika hamnar utan någon kontroll.

1855 – 1890. Den första mottagningsanläggningen för immigranter startades av staden New York 1855 och placerades i **Castle Garden** längst ner på södra Manhattans. Anläggningen användes t.o.m 1890, då mottagningen flyttades över till Barge Island på sydöstra Manhattans under tiden man byggde upp Ellis Island.

1892 – 1954. Ellis Island, New York. 1897 härjade en ofantlig brand på Ellis Island och byggnaderna, som var gjorda av trä förstördes totalt.. Immigrationskontoret på Barge Island fick åter öppnas under tiden nya byggnader restes på Ellis Island. Under dessa år ankom över tolv millioner immigranter till USA genom Ellis Islands portar.

AMERICA'S FIRST IMMIGRATION CENTER

1/21/2012 - 63,000 new records added to CastleGarden.org!

CastleGarden.org is an educational project of The Battery Conservancy. This free site offers access to an extraordinary database of information on 11 million immigrants from 1820 through 1892, the year Ellis Island opened. Over 100 million Americans can trace their ancestors to this early immigration period.

Castle Garden, today known as Castle Clinton National Monument, is the major landmark within The Battery, the 25 acre waterfront park at the tip of Manhattan. From 1855 to 1890, the Castle was America's first official immigration center, a pioneering collaboration of New York State and New York City.

CastleGarden.org is an invaluable resource for educators, scholars, students, family historians, and the interested public. Currently the site hosts 11 million records, and support is needed to complete the complete digitization of the original ship manifests.

The Battery remains one of the oldest public open spaces in continuous use in New York City. Native Americans fished from its banks, and the first Dutch settlers built a low, stone wall with cannons, a battery, to protect the harbor and the fledgling city of New Amsterdam. The transformations of The Battery and the Castle tell the history of New York and, by association, the growth and development of our nation.

Every \$5 in donations funds the digitization of another manifest. Please consider supporting this free service today.

Castle Garden, ett cirkelformat sandstensfort, byggt 1812 för att hålla britterna borta. Kallas idag Castle Clinton nationalmonument och ligger i Battery Park på södra spetsen av Manhattan. Detta var den första immigranthamnen i New York, som 1820 - 1892 tog emot över elva miljoner immigranter från Europa.

Emigrantforskning – Halifax, Kanada

Pier 21 före detta atlantångarterminal, är Kanadas nationella immigrationsmuseum i *Halifax* i *Nova Scotia*. Den drevs som en fartygsterminal och ankomstshall mellan 1928 och 1971 och förvandlades till invandringsmuseum 1999. Pier 21 är Kanadas sista ankomsthall för immigranter.

Den gamla hamnbyggnaden på Pier 21 har sedan 1991 utvecklats till ett *forskningsinstitut* där man bygger upp en kunskapsbank med uppgifter om Kanadas invandrade befolkning. Pier 21 har en egen hemsida där man kan söka efter anförvanter, <http://www.pier21.ca/ship-arrival-search.php>.

Background

In the 19th century, an increasing stream of people was leaving Europe to rebuild their lives in North America. Around 1830, an average of 30,000 immigrants arrived annually in the City of Québec, the main port of entry to Canada. Approximately two-thirds of these newcomers were from Ireland. This unprecedented immigration on the St. Lawrence River took place at a time when major cholera and smallpox epidemics were sweeping through Europe. In order to help control the spread of the diseases, the quarantine station at Grosse Île, located in the St. Lawrence River downstream from the City of Québec, was established in 1832 and operated until its closure in 1937.

In 1974, the old quarantine station became a national historic site under the jurisdiction of Parks Canada.

It is with great pleasure I acknowledge the generosity of the wonderful genies, from all over the world, who have joined me, at different times during the past nine years, to help make more names available for Genies everywhere, especially for their time, patience and skills. Over 600 have come and gone, all have given whatever they could include in their already busy lives, be it five or five thousand - they have been appreciated.
